

FOR IMMEDIATE Release

Oberweis Asset Management, Inc. Introduces New Concentrated International Fund

LISLE, IL, March 29, 2022— Oberweis Asset Management, Inc. (OAM) and The Oberweis Funds are pleased to announce the launch of the Oberweis Focused International Growth Fund (OFIGX). The Oberweis Focused International Growth Fund is a concentrated, high-conviction mutual fund that is managed by Ralf Scherschmidt and team, the same team that manages OAM's International Opportunities Funds. The Oberweis Focused International Growth Fund generally owns between 25-40 positions with market capitalizations greater than US\$5 billion. In managing the Oberweis Focused International Growth Fund, our team follows the same successful, disciplined, time-tested investment process and philosophy that has produced highly superior results over long periods of time in OAM's International Opportunities Funds. This investment process and philosophy identifies companies whose future fundamentals, earnings power and cash flow generation are not yet correctly understood by the market. As a result, their securities can be mispriced; our process repeatably and successfully capitalizes on these situations. Our approach to international investing is differentiated and combines empirically-documented sources of alpha (backed by empirical evidence from research in behavioral finance) with rigorous fundamental bottom-up research.

About Oberweis Asset Management, Inc.

Oberweis Asset Management, Inc. is an independent investment management firm that seeks to identify and capitalize on pricing inefficiencies in equities across the capitalization spectrum, worldwide. We specialize in uncovering mispriced equities, combining behavioral finance with fundamental bottom-up research. Serving institutional investors and our own proprietary family of mutual funds for over 30 years, we focus exclusively on identifying opportunities where change results in temporary misunderstanding of a company's true value, providing the potential for superior investment results over the long term.
