PRESIDENT'S LETTER (unaudited)

Dear Fellow Shareholder.

2022 was an unusually rough year for investors. The Fed's fight against inflation and Russia's war in Ukraine were mostly to blame. Both stocks and bonds felt the scourge of rising interest rates. The US Fed, in an attempt to fight inflation, increased its target rate for Fed Funds by 400 bps from March to December, going from a target range of 0.25-0.5% to 4.25-4.50%. Except for China, major central banks around the world followed suit. The magnitude of this year's increase in rates materially exceeded investor expectations.

Unanticipated large increases in interest rates are a double whammy for growth stock investors. Higher interest rates tend to slow economic growth and depress future earnings. Additionally, they also tend to compress valuation multiples for growth stocks, as a higher discount factor reduces the present value of future earnings. When viewed in that light, it's not terribly surprising to see a sharp decline in stock prices, particularly for growth stocks.

The Fed's quest to quell inflation was complicated by supply-side disruptions and an incredibly tight labor market. The war in Ukraine and China's COVID-related production problems increased commodity prices and pressured global supply chains, which fueled price increases and exacerbated inflation. Further, a labor shortage put upward pressure on wages, further complicating the Fed's anti-inflation campaign.

In terms of economic growth, the US economy fared better than Europe. Europe suffered through a period of sky-high natural gas prices, largely from its dependence on Russian supply. Non-US small caps lagged their US counterparts for the second year in a row. Japanese equities fared relatively well in local currency terms, but not in USD terms, which include the effect of the Yen's decline versus the US dollar.

China was the most challenging geography. Between President Xi Jinping's "Covid zero" and "shared prosperity" policies, the investment climate could only be described as decidedly unfriendly and highly unpredictable. This occurred amid a strengthening US dollar and weakening Chinese property market, typically not great signs for Chinese asset prices. Chinese markets crashed into the October National Congress of the Communist Party, when Xi doubled down on the same adverse policy rhetoric.

However, in recent months and into 2023, Chinese equities have rallied strongly. After his successful consolidation of power, Xi dramatically changed policy direction, essentially abandoning "Covid Zero" entirely. While a massive wave of Covid promptly ensued, cases in urban areas may already have peaked and we expect a return to more open times soon. Xi also showed signs of softening his stance on property market regulation and anti-monopoly investigations against Internet firms. This drove a 30% rally in China over the two months that followed the National Congress, but it was not enough to recover from the heavy losses earlier in the year.

2022 PERFORMANCE IN REVIEW

While nobody is happy with a negative return, the domestic funds fared exceptionally well relative to their benchmark indices and peers. The Micro-Cap Fund and Small-Cap Opportunities Fund returned -10.60% and -11.17%, respectively (compared to -29.76% and -26.36% for the Russell Micro-Cap Growth and Russell 2000 Growth indices). Among the international funds, the International Opportunities Fund returned -37.06% (versus -27.02% for the MSCI World ex-US SCG Index). The China Opportunities Fund returned -37.23% (compared to -21.93% for the MSCI China Index). The Global Opportunities Fund returned -26.80% (compared to -18.67% for the MSCI ACWI Small-Cap Index).

PRESIDENT'S LETTER (unaudited) (continued)

It is entirely normal to have individual years deviate positively and negatively from the benchmark. Over the trailing ten years, the average annual returns of the Micro-Cap, Small-Cap, Global, International, and China Funds have all handily beaten their benchmarks. Similarly, although the Emerging Markets Fund underperformed this year, returning -24.31% (versus -18.02% for the MSCI EM Small Cap Index), the fund has markedly outperformed since its inception. In fact, the Emerging Markets Fund has generated 1,800 basis points of excess cumulative return, net of fees, since its inception on May 1, 2018.

When you measure our skill, we find the long-term track record to be far more indicative than any individual year. In fact, our experience has shown that some of the most attractive entry points often occur following periods of short-term underperformance.

THE YEAR AHEAD

A reader of the first page of this seemingly dreary commentary might conclude our outlook to be bearish. It is, in reality, quite the opposite. We believe that at current prices, the return potential for our funds is significantly above-average, particularly relative to the risks. Our research shows that valuations for global small-caps rival the incredible bargains last seen in the depths of the global financial crisis. That might seem surprising, as stock prices have not declined as much as they did in 2008-2009. However, price/earnings ratios for small-caps were not as expensive at the beginning of 2021 as they were in 2007 and earnings have not similarly declined.

Of course, earnings for our portfolios could be curtailed in 2023, but we don't see that as the most likely outcome. First, while we expect recession as a base case in 2023, we believe a modest GDP contraction is unlikely to lead to an unhealthy level of unemployment. That is, with less leverage on both corporate and individual balance sheets and a tight labor market, we believe that the coming economic slowdown is likely to be less severe than that of 2008.

Second, and more importantly, our funds are less correlated to the broader economy than you might think. We tend to own "disruptive" niche-oriented companies growing much faster than the broader economy. Long-term growth for these companies tends to be much more correlated with product acceptance and market share gains than oscillations in GDP. While broad economic growth or contraction will influence many holdings to some degree, the real driver, especially over the long-term, tends to be company-specific product growth.

That said, during periods of rising risk-aversion, investors seek current cash flow versus the potential for future earnings growth. That's why multiples compressed last year. But that has already happened, and buyers today are paying much lower multiples than historical averages. Multiple compression could continue in 2023 but multiples for small-cap growth stocks have already dropped to among the cheapest levels of the past two decades. It could get worse, but we doubt any further contraction will be persistent or material.

At some point, the recession will pass and valuation multiples are likely to revert back to more normal levels. We cannot predict when this will occur, but post-recessionary multiple expansion (which typically happens well before the economy reaches the end of a recession) have been the single best periods for the performance of our funds. Don't miss it.

VALUATION RECAP

As of December 31, 2022, the price/earnings (P/E) ratio was 14.9 times for the Global Opportunities Fund (versus 13.0 last quarter), 13.0 times for the Small-Cap Opportunities Fund (versus 11.5 last quarter), 11.6 times for the Micro-Cap Fund (versus 10.5 last quarter), 15.2 times for the International Opportunities Fund (versus 12.9 last quarter), 18.9 times for the China Opportunities Fund (versus 18.6 last quarter), 18.2 times for the Emerging Markets

PRESIDENT'S LETTER (unaudited) (continued)

Fund (versus 17.4 times last quarter). Each of these funds invests in companies with expected earnings growth rates that are higher than that of the broader market, and in companies expected to grow faster than current market expectations. As of December 31, 2022, the weighted-average market capitalization was \$4.3 billion for the Global Opportunities Fund, \$3.8 billion for the Small-Cap Opportunities Fund, \$1.3 billion for the Micro-Cap Fund, \$4.3 billion for the International Opportunities Fund, \$3.9 billion for the Emerging Markets Fund, and \$33.1 billion for the China Opportunities Fund.

We appreciate your investment in The Oberweis Funds and are grateful for the trust you have shown us with your valuable investments. If you have any questions about your account, please contact shareholder services at (800) 245-7311. Thank you for investing with us in The Oberweis Funds.

Sincerely,

James W. Oberweis, CFA
President & Portfolio Manager

Ja Dr. Obernei

MANAGEMENT DISCUSSION ON FUND PERFORMANCE (unaudited)

MARKET ENVIRONMENT

Global equities returned -17.74% in 2022, as measured by the MSCI World Index. Global small-caps, as measured by the MSCI World Small-Cap Index, returned -18.41%, slightly underperforming large-capitalization stocks. International small-caps underperformed U.S. small-caps for the second year, as evidenced by the -20.59% return on the MSCI World ex-USA Small-Cap Index. Within the United States, small-cap growth stocks outperformed large-cap growth stocks by 278 basis points, as measured by the respective returns of the Russell 2000 Growth (-26.36%) and Russell 1000 Growth (-29.14%) indices. Value stocks sharply outperformed growth stocks in 2022. Within domestic small-cap, the Russell 2000 Value Index (-14.50%) outperforming the Russell 2000 Growth Index (-26.36%) by 1186 basis points for the year.

DISCUSSION OF THE OBERWEIS FUNDS

The International Opportunities Fund returned -37.06% versus -27.02% for the MSCI World ex-US Small Cap Growth Index. At the country level, the United Kingdom, Japan, and Canada detracted from portfolio return, partially offset by favorable performance in Denmark. At the sector level, the portfolio was negatively impacted by stock selection in consumer staples and consumer discretionary, partially offset by positive stock selection in industrials. At the stock level, Hexatronic (HTRO SS), D/S Norden (DNORD DC), and Aixtron (AIXA GY) were among the top contributors to performance; Future (FUTR LN), Nordic Semiconductor (NOD NO), and Food & Life Companies (3563 JP) were among the top detractors.

The Global Opportunities Fund returned -26.80% versus -18.67% for the MSCI AWCI Small-Cap Index. At the country level, stock selection in the United States, Taiwan, and Germany added to portfolio return, while Japan, the U.K., and China detracted from portfolio return. At the sector level, healthcare added to return, while information technology, consumer discretionary and financials detracted. At the stock level, Halozyme Therapeutics (HALO US), Acadia Healthcare (ACHC US), and Super Micro Computer (SMCI US) were among the top contributors to performance; Synaptics (SYNA US), Intermediate Capital Group (ICP LN) and Ultra Clean Holdings (UCTT US) were among the top detractors.

The China Opportunities Fund returned -37.23% versus -21.93% for the MSCI China Index. At the sector level, consumer discretionary added to return, while information technology, financials, and materials were top detractors. At the stock level, Pinduoduo (PDD US), Hygeia Healthcare (6078 HK), and Trip.com (9961 HK), were among the top contributors to performance; ACM Research (688082) and Longfor Group (960 HK) were among the top detractors.

The Emerging Markets Fund returned -24.31% versus -18.02% for the MSCI EM Small-Cap Index. At the country level, China, Mexico, and Turkey were the primary detractors while Indonesia was the top contributor. At the sector level, the fund was positively impacted by stock selection in consumer staples, while performance was adversely impacted by stock selection in industrials and information technology. At the stock level, Mitra Adiperkasa (MAPI IJ), Xiabuxiabu Catering Management (520 HK), and PT Sumber Alfaria Trijaya (AMRT IJ) were among the top contributors to performance; Aspeed Technology (5274 TT), Weimob (2013 HK), and Pan Jit International (2481 TT) were among the top detractors.

(unaudited) (continued)

The Micro-Cap Fund returned -10.60% versus -29.76% for the Russell Micro-Cap Growth Index. The portfolio benefitted from favorable stock selection in technology, producer durables and healthcare. At the stock level, Lantheus (LNTH), Sierra Wireless (SWIR), and Bel Fuse (BELFB) were among the top contributors to performance. Alpha & Omega Semiconductor (AOSL), Boot Barn (BOOT), and Ultra Clean (UCTT) were among the top detractors.

The Small-Cap Opportunities Fund returned -11.17% versus -26.36% for the Russell 2000 Growth Index. The portfolio benefitted from favorable stock selection in healthcare, technology, and producer durables. Lantheus (LNTH), Clearfield (CLFD), and Sierra Wireless (SWIR) were among the top contributors to performance. Synaptics (SYNA), Crocs (CROX), and Ultra Clean (UCTT) were among the top detractors.

¹ Performance data represents past performance, which is no guarantee of future results. Current performance may be higher or lower than the performance shown. You can obtain performance data current to the most recent month by visiting oberweisfunds.com. Returns are historical and include changes in share price and reinvestment of dividends and capital gains. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. The Fund's total returns do not reflect the deduction of income taxes on an individual's investment. Taxes may reduce your actual investment returns on income or gains paid by the Fund or any gains you may realize if you sell your shares. The Oberweis Funds invest in rapidly growing smaller and medium sized companies, which may offer greater return potential. However, these investments often involve greater risks and volatility. There is no guarantee that the portfolios can achieve their objectives.

The Russell Microcap Growth Index measures the performance of those Russell microcap companies with higher price-to-book ratios and higher forecasted growth values. The Russell Microcap Growth Index is represented by the smallest 1,000 securities in the small cap Russell 2000 Index plus the next 1,000 securities. The Russell Index is unmanaged and is not available for investment.

² Since Inception returns are from commencement of operations on 01/01/96 for the Fund.

³ Expense ratio is the total annual net fund operating expense ratio as of 12/31/22. The expense ratio gross of any fee waivers or expense reimbursement was 1.53% and 1.28% for the Investor Class and Institutional Class, respectively.

⁴ The Institutional share class (OMCIX) began on May 1, 2017, returns for prior periods represent synthetic returns.

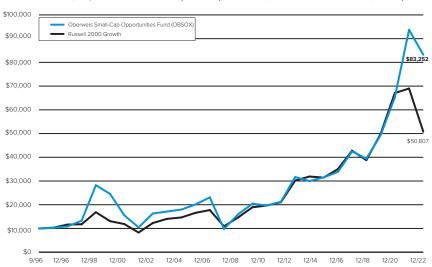

⁵ The Russell Microcap Growth Index began on July 3, 2000, and the line graph for the Index begins at the same value as the Fund on that date.

| MSCI China Net | (21.93) | (4.54) | 2.43 | 7.01 | |

Growth of a \$10,000 Investment (from October 1, 2005 to December 31, 2022)

Performance data represents past performance, which is no guarantee of future results. Returns are historical and include changes in share price and reinvestment of dividends and capital gains. Current performance may be higher or lower than the performance shown. You can obtain performance data current to the most recent month by visiting oberweisfunds.com. The principal value and investment return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. The Fund's total returns do not reflect the deduction of income taxes on an individual's investment. Taxes may reduce your actual investment returns on income or gains paid by the Fund or any gains you may realize if you sell your shares. The Oberweis Funds invest in rapidly growing smaller and medium sized companies, which may offer greater return potential. However, these investments often involve greater risks and volatility. Foreign and emerging market investing involves special risks such as currency fluctuation and less public disclosure, as well as economic and political risk. There is no guarantee that the portfolios can achieve their objectives.

The MSCI China Net Index is a free float-adjusted market capitalization-weighted Index of Chinese equities that include China-affiliated corporations and H shares listed on the Hong Kong Exchange, and B shares listed on the Shanghai and Shenzhen exchanges and P chips and foreign listings with minimum dividends reinvested net of withholding tax. The MSCI China net index is unmanaged and is not available for investment.

² Since Inception returns are from commencement of operations on 10/01/05 for the Fund.

³ Expense ratio is the total annual net fund operating expense ratio as of 12/31/22. The expense ratio gross of any fee waivers or expense reimbursement was 2.05% and 1.80% for Investor Class and Institutional Class, respectively.

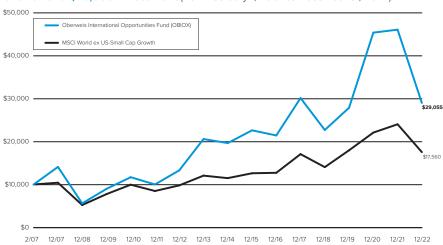

⁴ The Institutional share class (OCHIX) began on May 1, 2017, returns for prior periods represent synthetic returns.

Notes to Financial Statements December 31, 2022

1. Description of Organization

Description of business. The Oberweis Funds (the "Trust") is registered under the Investment Company Act of 1940 as an open-end management investment company. The Trust is authorized to operate numerous Funds under various trading strategies. The Trust consists of eight Funds of which six are in this report: the Oberweis Micro-Cap Fund, the Oberweis Small-Cap Opportunities Fund, the Oberweis Global Opportunities Fund, the Oberweis China Opportunities Fund, the Oberweis International Opportunities Fund, and the Oberweis Emerging Markets Fund (collectively, "the Funds") are each a series of the Trust. Each Fund in this report except for Oberweis International Opportunities Fund currently offers two classes of shares: Investor Class and Institutional Class. Oberweis International Opportunities Fund offers only Investor Class shares. Each class of shares has identical voting, dividend, liquidation and other rights and the same terms and conditions, except each class may be subject to different class expenses as outlined in the relevant prospectus and each class has exclusive voting rights with respect to matters solely affecting such class.

2. Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the Funds. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Funds are each an investment company and follow accounting and reporting guidance under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, "Financial Services — Investment Companies."

Investment valuation. Investments in securities are stated at value as of the close of the regular trading session on the New York Stock Exchange ("NYSE") (generally 3 p.m., Central Standard Time). Each listed and unlisted security for which last sale information is regularly reported is valued at the last reported sales price on that day. If there has been no sale on such day, then such security is valued at the current day's bid price. Any unlisted security for which last sale information is not regularly reported and any listed debt security which has an inactive listed market for which over-the-counter market quotations are readily available is valued at the closing bid price determined on the basis of reasonable inquiry. Restricted securities and any other securities or other assets for which market quotations are not readily available are valued by appraisal at their fair value as determined in good faith under procedures established by and under the general supervision and responsibility of the Board of Trustees. Short-term debt obligations, commercial paper and repurchase agreements are valued on the basis of quoted yields for securities of comparable maturity, quality and type or on the basis of amortized cost.

The Oberweis Global Opportunities Fund, the Oberweis China Opportunities Fund, the Oberweis International Opportunities Fund and the Oberweis Emerging Markets Fund hold foreign equity securities. Foreign securities are fair valued as described in the following circumstances. Generally, trading in foreign securities markets is completed each day at various times prior to the close of the regular trading session of the NYSE. Due to the time differences between the closings of the relevant foreign securities exchanges and the close of the regular trading session of the NYSE for the Funds, the Funds will fair value their foreign investments when it is determined that the market quotations for the foreign investments either are not readily available or are unreliable and, therefore, do not represent fair value. When the fair value prices are utilized, these prices will attempt to reflect the impact of the U.S. financial markets' perceptions and trading activities on the Funds' foreign investments since the last

Notes to Financial Statements December 31, 2022 (continued)

closing prices of the foreign investments were calculated on their primary foreign securities markets or exchanges. For these purposes, the Board of Trustees of the Trust has determined that movements in relevant indices, after the close of the foreign securities exchanges, may demonstrate that market quotations are unreliable, and may trigger fair value pricing for certain securities. Consequently, fair valuation of portfolio securities may occur on a daily basis. In determining fair value prices, the Trust utilizes data furnished by an independent pricing service (and that data draws upon, among other information, the market values of foreign investments). When a Fund uses fair value pricing, the values assigned to the Fund's foreign investments may not be the quoted or published prices of the investments on their primary markets or exchanges.

Fair value measurements. In accordance with Financial Accounting Standards Board ("FASB") guidance, the Funds utilize the "Fair Value Measurements and Disclosures" to define fair value, set out a framework for measuring fair value, and expand disclosures regarding fair value measurements.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three levels listed below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc).
- Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Funds' net assets as of December 31, 2022:

| | Micro-Cap Fund | Small-Cap Opportunities Fund |
|-----------------------|--|--|
| Level 1 – Equities | \$ 162,821,078 | \$ 150,482,625 |

| Level 3 | |
| Total Investments | \$ 12,095,420 |

The Funds' assets include certain foreign securities for which a third party statistical pricing service may be employed for purposes of fair market valuation. The pricing service provides fair market valuation on days when the movement in relevant indices exceeds a predetermined threshold.

Foreign currency transactions. The accounting records of the Funds are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the current rate of exchange to determine the value of investments, assets and liabilities. Purchases and sales of securities, and income and expenses are translated at the prevailing rate of exchange on the respective date of these transactions. The Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from fluctuations arising from changes in market prices of securities held. These fluctuations are included with the net realized and unrealized gains or losses from investments and foreign currencies.

Risks associated with foreign securities and currencies. Investments in securities of foreign issuers carry certain risks not ordinarily associated with investments in securities of U.S. issuers. These risks include future political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws and restrictions. In addition, with respect to certain countries, there is the possibility of expropriation of assets, confiscatory taxation, political or social instability or diplomatic developments, which could adversely affect investments in those countries.

Certain countries also may impose substantial restrictions on investments in their capital markets by foreign entities, including restrictions on investments in issuers of industries deemed sensitive to relevant national interests. These factors may limit the investment opportunities available and result in a lack of liquidity and a high price volatility with respect to securities of issuers from developing countries.

Fund share valuation. Fund shares are sold and redeemed on a continuous basis at net asset value. On each day the NYSE is open for trading, the net asset value per share is determined as of the later of the close of the NYSE or the CBOE by dividing the total value of each Fund's investments and other assets, less liabilities, by the number of each Fund's shares outstanding.

Notes to Financial Statements December 31, 2022 (continued)

Investment transactions and investment income. Investment transactions are accounted for on the trade date (date the order to buy or sell is executed). Dividend income is recorded on the ex-dividend date, except that certain dividends from foreign securities are recorded as soon as the information is available to the Fund, and interest income is recorded on the accrual basis and includes amortization of premium and discount. Realized gains and losses from investment transactions are reported on an identified cost basis. Income and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets.

Fund foreign taxation. The Funds may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which they invest. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Funds invest. When a capital gain tax is determined to apply, the Funds record an estimated deferred tax liability in an amount that may be payable if the securities were disposed of on the valuation date.

Fund expense allocations. The Funds account separately for the assets, liabilities and operations of each Fund. Direct expenses of each Fund or class are charged to that Fund or class while general expenses are allocated pro-rata among the Funds based on net assets or other appropriate methods.

Federal income taxes and dividends to shareholders. It is the policy of the Funds to continue to comply with all requirements of the Internal Revenue Code of 1986, as amended ("the Code"), applicable to regulated investment companies and to distribute substantially all of their taxable income to their shareholders. The Funds have met the requirements of the Code applicable to regulated investment companies for the year ended December 31, 2022. Therefore, no federal income tax provision is required. Income and capital gains of the Funds are determined in accordance with both tax regulations and accounting principles generally accepted in the U.S. ("GAAP"). Such treatment may result in temporary and permanent differences between tax basis earnings and earnings reported for financial statement purposes. These reclassifications, which have no impact on the net asset value of the Funds, are primarily attributable to certain differences in computation of distributable income and capital gains under federal tax rules versus GAAP.

Certain Funds may utilize earnings and profits on redemption of shares as part of the dividends paid deduction.

For the year ended December 31, 2022, permanent book and tax basis differences resulting primarily from differing treatments for net operating losses, foreign currency transactions, passive foreign investment company ("PFIC") adjustments and the tax practice known as equalization, were identified and reclassified among the components of the Funds' net assets.

Notes to Financial Statements December 31, 2022 (continued)

GAAP requires that certain components of net assets be reclassified between financial and tax retporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended December 31, 2022, permanent differences in book and tax accounting have been reclassified to paid in capital, accumulated net investment income/loss and accumulated net realized gain/loss as follows:

| | Increases/(Decrease) | | |
|----------------------------------|----------------------|--------------------------------|--|
| | Capital | Accumulated Earnings (Loss) | |
| Micro-Cap Fund\$ | (579,362) \$ | 579,362 | |
| Small-Cap Opportunities Fund | (500,936) | 500,936 | |
| Global Opportunities Fund | (781,959) | 781,959 | |
| China Opportunities Fund | (255,615) | 255,615 | |
| International Opportunities Fund | (2,428,938) | 2,428,938 | |
| Emerging Markets Fund | (6,723) | 6,723 | |

The tax character of distributions paid during the fiscal year ended December 31, 2022 was as follows:

| | Distributions Paid from Ordinary Income | Distributions Paid from Net Long-Term Capital Gains | Total Distributions Paid |
|----------------------------------|--|--|--------------------------------|
| Micro-Cap Fund\$ | - \$ | 2,280,457 \$ | 2,280,457 |
| Small-Cap Opportunities Fund | _ | 264,969 | 264,969 |
| Global Opportunities Fund | _ | 1,327,408 | 1,327,408 |
| China Opportunities Fund | _ | 670,587 | 670,587 |
| International Opportunities Fund | _ | _ | _ |
| Emerging Markets Fund | _ | 337,447 | 337,447 |

The tax character of distributions paid during the fiscal year ended December 31, 2021 was as follows:

| | Distributions Paid from Ordinary Income | Distributions Paid from Net Long-Term Capital Gains | Total Distributions Paid |
|----------------------------------|--|--|--------------------------------|
| Micro-Cap Fund\$ | 6,601,079 \$ | 21,730,672 \$ | 28,331,751 |
| Small-Cap Opportunities Fund | 2,861,415 | 2,668,831 | 5,530,246 |
| Global Opportunities Fund | 2,861,842 | 13,000,295 | 15,862,137 |
| China Opportunities Fund | 4,018,595 | 24,805,173 | 28,823,768 |
| International Opportunities Fund | _ | 54,761,352 | 54,761,352 |
| Emerging Markets Fund | 15,223 | 1,712,401 | 1,727,624 |

As of December 31, 2022, the following Funds had net capital loss carryforwards to offset future net capital gains, if any, to the extent provided by treasury regulations:

| | Not Subject to Expiration | | |
|----------------------------------|---------------------------|-----------|--|
| _ | Short-Term | Long-Term | |
| Micro-Cap Fund\$ | - \$ | _ | |
| Small-Cap Opportunities Fund | 3,875,560 | _ | |
| Global Opportunities Fund | 5,328,265 | _ | |
| China Opportunities Fund | 23,446,626 | _ | |
| International Opportunities Fund | 39,322,654 | 823,206 | |
| Emerging Markets Fund | 849,768 | _ | |

Notes to Financial Statements December 31, 2022 (continued)

Post-October capital losses incurred after October 31 and within the taxable year are deemed to arise on the first business day of the Funds' next taxable year. For the year ended December 31, 2022, Post October capital losses treated arising on January 1, 2023 was as follows:

| | Short-Term | Long-Term |
|----------------------------------|--------------|-----------|
| Micro-Cap Fund | 2,369,475 \$ | _ |
| Small-Cap Opportunities Fund | _ | _ |
| Global Opportunities Fund | _ | _ |
| China Opportunities Fund | _ | _ |
| International Opportunities Fund | _ | _ |
| Emerging Markets Fund | _ | _ |

As of December 31, 2022 the components of accumulated earnings (deficit) on a tax basis were as follows:

Unrealized

| | Undistributed ordinary income (deficit) | Undistributed long-term capital gains | capital and | | Appreciation/ (Depreciation) foreign currency translations and India sales tax |
|----------------------------------|--|---|----------------------|---------------|--|
| Micro-Cap | | Φ. | 4 (0.000 475) | . | |
| Fund S | → | \$ - | \$ (2,369,475) | \$ 24,828,093 | \$ - |
| Small-Cap Opportunities Fund | _ | _ | (3,875,560) | 7,334,226 | _ |
| Global | | | | | |
| Opportunites Fund | | | (5,328,265) | 4,552,784 | (556) |
| China | | | | | |
| Opportunities Fund | _ | _ | (23,446,626) | 2,612,522 | 14,249 |
| International Opportunities Fund | _ | _ | (40,145,860) | 899,530 | (29,570) |
| Emerging Markets Fund | _ | _ | (849,768) | 12,511 | (43,307) |
| | | | | | |

Accumulated capital and other losses consists of timing differences related to wash sales and capital loss carryforwards.

As of December 31, 2022 the cost of investments for federal income tax purposes are as follows:

| | Cost of Investments for Federal Tax Purposes | Gross Unrealized Appreciation | Gross Unrealized (Depreciation) | Unrealized Appreciation |
|-----------------------------|---|-------------------------------------|---------------------------------------|----------------------------|
| Micro-Cap Fund\$ | 137,992,985 \$ | 34,093,660 | \$ (9,265,567) \$ | 24,828,093 |
| Small-Cap Opportunities | | | | |
| Fund | 143,148,399 | 14,056,265 | (6,722,039) | 7,334,226 |
| Global Opportunities Fund | 47,254,575 | 8,713,446 | (4,160,662) | 4,552,784 |
| China Opportunities Fund | 53,256,649 | 6,412,523 | (3,800,001) | 2,612,522 |
| International Opportunities | | | | |
| Fund | 143,653,212 | 18,828,362 | (17,928,832) | 899,530 |
| Emerging Markets Fund | 12,082,909 | 1,666,974 | (1,654,463) | 12,511 |

Notes to Financial Statements December 31, 2022 (continued)

The Funds have reviewed all open tax years and major jurisdictions and concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for exam by taxing authorities and as of December 31, 2022, open federal tax years included the tax years ended 2019 through 2022. The Funds have no examinations in progress and is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Use of estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Indemnifications. Under the Trust's organizational documents, its present and former Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In addition, in the normal course of business, the Trust enters into contracts that provide general indemnifications to other parties. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

3. Transactions with affiliates

The Funds have written agreements with Oberweis Asset Management, Inc. ("OAM") as the Funds' investment advisor and manager. Oberweis Securities, Inc. ("OSI"), the Funds' principal distributor, is an affiliate of OAM.

Investment advisory agreement. Under the Advisory Agreement, OAM provides investment advisory services to the Micro-Cap, Global Opportunities, and Small-Cap Opportunities Funds and pursuant to a separate Management Agreement, OAM provides non-investment advisory management services such as administrative, compliance and accounting services to these Funds. For investment advisory services, the Micro-Cap Fund paid monthly investment advisory fees at an annual rate equal to .60% of average daily net assets. The Global Opportunities Fund paid monthly investment advisory fees at an annual rate equal to .45% of the first \$50 million of average daily net assets and .40% of average daily net assets in excess of \$50 million. The Small-Cap Opportunities Fund paid monthly investment advisory fees at an annual rate equal to .40% of average daily net assets. For investment advisory and management services, the China Opportunities Fund, the International Opportunities Fund and the Emerging Markets Fund paid monthly investment advisory and management fees at an annual rate equal to 1.25%, 1.25% and 1.25% of average daily net assets, respectively. For the year ended December 31, 2022, the Micro-Cap Fund, Small-Cap Opportunities Fund and Global Opportunities Fund incurred investment advisory fees totaling \$824,982, \$267,948 and \$248,998, respectively. For the year ended December 31, 2022, the China Opportunities Fund, International Opportunities Fund, and Emerging Market Fund incurred investment advisory fees totaling \$845,056, \$2,411,314 and \$162,225, respectively.

Management agreement. For management services and facilities furnished, the Micro-Cap Fund, Global Opportunities Fund, and Small-Cap Opportunities Fund each paid a monthly fee at an annual rate equal to .40% of average daily net assets. For the year ended December 31, 2022, the Micro-Cap Fund, Small-Cap Opportunities Fund, and Global Opportunities Fund incurred management fees totaling \$549,988, \$267,948, and \$223,998, respectively.

Expense reimbursement. OAM is contractually obligated to reduce its investment and management fees or reimburse the Micro-Cap Fund and Global Opportunities Fund Investor Class Shares to the extent that total ordinary operating expenses, as defined, exceed in any one year the following amounts expressed as a percentage of each Fund's average daily net assets: 1.80% of the first \$50 million; plus 1.60% of average daily net assets in excess of \$50 million.

Notes to Financial Statements December 31, 2022 (continued)

OAM is contractually obligated to reduce its investment and management fees or reimburse Small-Cap Opportunities Fund, China Opportunities Fund, International Opportunities Fund and Emerging Markets Fund Investor Class Shares to the extent that total ordinary operating expenses, as defined, exceed in any one year 1.25%, 2.24%, 1.60% and 1.75% expressed as a percentage of the Fund's average daily net assets, respectively. OAM is contractually obligated to reduce its investment and management fees or reimburse the Micro-Cap Fund Institutional and the Global Opportunities Fund Class Shares to the extent that total ordinary operating expenses, as defined, exceed in any one year the following amounts expressed as a percentage of each Fund's average daily net assets: 1.55% of the first \$50 million; plus 1.35% of average daily net assets in excess of \$50 million. OAM is contractually obligated to reduce its investment and management fees or reimburse the Small-Cap Opportunities Fund, China Opportunities Fund and Emerging Markets Fund Institutional Class Shares to the extent that total ordinary operating expenses, as defined, exceed in any one year 1.00%, 1.99% and 1.50% expressed as a percentage of the Funds' average daily net assets, respectively. For the year ended December 31, 2022 OAM reimbursed the Small-Cap Opportunities Fund, the International Opportunities Fund, and the Emerging Markets Fund in the amount of \$116,878, \$498,844, and \$140,702, respectively.

The expense limitation agreements have one-year terms and are approved annually. The Adviser may recoup the amount of any expense reimbursed during the term of the expense limitation agreement if the recoupment does not cause the Fund's expenses to exceed the expense limitation in place at the time of reimbursement.

Officers and trustees. Certain officers and trustees of the Trust are also officers and/or directors of OAM and OSI. During the year ended December 31, 2022, the Trust made no direct payments to its officers and paid \$171,167 to its unaffiliated trustees.

Distribution and shareholder service agreement. The Funds have a distribution and shareholder services agreement with OSI. For services under the distribution and shareholder services agreement, the Funds pay OSI a fee at the annual rate of .25% of the average daily net assets of Investor Class Shares as compensation for services. For the year ended December 31, 2022, the Micro-Cap Fund, Small-Cap Opportunities Fund, Global Opportunities Fund, China Opportunities Fund, International Opportunities Fund, and Emerging Markets Fund incurred distribution fees totaling \$199,062, \$111,863, \$92,818, \$136,592, \$482,263, and \$4,214, respectively.

Affiliated Commissions. For the year ended December 31, 2022, the Micro-Cap Fund, Small-Cap Opportunities Fund, Global Opportunities Fund, China Opportunities Fund, International Opportunities Fund, and Emerging Markets Fund did not execute any security transactions through OSI and therefore did not pay commissions to OSI.

4. Investment transactions

The cost of securities purchased and proceeds from securities sold during the year ended December 31, 2022, other than money market investments, aggregated \$122,170,019 and \$82,694,636, respectively, for the Micro-Cap Fund, \$154,026,544 and \$29,042,042, respectively, for the Small-Cap Opportunities Fund, \$41,061,769 and \$43,859,543, respectively, for the Global Opportunities Fund, \$169,761,938 and \$173,462,988, respectively, for the China Opportunities Fund, \$143,800,635,and \$197,322,594, respectively, for the International Opportunities Fund, \$11,688,492 and \$8,623,527, respectively, for the Emerging Markets Fund. The Funds did not hold government securities during the year ended December 31, 2022.

The Funds may write covered call options. The premiums received provide a partial hedge (protection) against declining prices and enables each Fund to generate a higher return during periods when OAM does not expect the underlying security to make any major price moves in the near future but still deems the underlying security to be, over the long term, an attractive investment for each Fund. The Funds write covered call options for which premiums received are recorded as liabilities and are subsequently adjusted to the current value of the options written. Premiums received from writing options that expire are treated as realized gains. Premiums received from writing options, which are either exercised or closed, are offset against the proceeds received or amount paid on the transaction to determine realized gains or losses.

Notes to Financial Statements December 31, 2022 (continued)

Amounts recovered for securities litigation are included in the realized gains of the Fund and are recorded when received. The Funds did not write covered call options during the year ended December 31, 2022.

5. Redemption fee

The Oberweis Funds are designed for long-term investors. To discourage market timers, redemptions of shares of the Micro-Cap Fund, Global Opportunities Fund, and Small-Cap Opportunities Fund within 90 days of purchase are subject to a 1% redemption fee of the total redemption amount and 2% for the China Opportunities Fund, the Emerging Markets Fund and the International Opportunities Fund. The redemption fee is deducted from the redemption proceeds and is retained by the Fund.

The redemption fee is retained by the Funds for the expense they incur in connection with shareholder redemptions. Redemption fees received by the Micro-Cap Fund, Small-Cap Opportunities Fund, Global Opportunities Fund, China Opportunities Fund, International Opportunities Fund, and Emerging Markets Fund were \$109,101, \$46,333, \$1,616, \$22,697, \$38,129 and \$3,324, respectively, for the year ended December 31, 2022, and were recorded as a reduction of the redemption of shares in the Statements of Changes in Net Assets.

6. Earnings credits and interest charges

The Trust, as part of the agreement with the Custodian, receives credits against its custodian fees on its uninvested cash balances and is allowed to borrow for temporary purposes. Borrowings are not to exceed 5% of the value of each Fund's total assets at the time of any such borrowing. Interest on amounts borrowed is calculated at the prime rate and is payable monthly. During the year ended December 31, 2022, the Micro-Cap Fund, Small-Cap Opportunities Fund, Global Opportunities Fund, China Opportunities Fund, International Opportunities Fund, and Emerging Markets Fund received credits of \$9,830, \$14,355, \$6,551, \$17,348, \$24,474, and \$8,598, respectively. During the year ended December 31, 2022, the Micro-Cap Fund, the Small Cap Opportunities Fund, the Global Opportunities Fund, the China Opportunities Fund, the International Opportunities Fund and the Emerging Markets Fund incurred interest charges of \$8,880, \$579, \$735, \$665, \$8,186, and \$82 respectively, which is included in custodian fees and expenses in the Statements of Operations.

7. Coronavirus (COVID-19) pandemic

In early 2020, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. This coronavirus has resulted in closing international borders, enhanced health screenings, healthcare service preparation and delivery, quarantines, cancellations, disruptions to supply chains and customer activity, as well as general public concern and uncertainty. The impact of this outbreak has negatively affected the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. The future impact of COVID-19 is currently unknown, and it may exacerbate other risks that apply to the Funds, including political, social and economic risks. Any such impact could adversely affect the Funds' performance, the performance of the securities in which the Funds invest and may lead to losses on your investment in each Fund. The ultimate impact of COVID-19 on the financial performance of the Funds' investments is not reasonably estimable at this time.

8. Subsequent events

The Funds have evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

To the Board of Trustees of The Oberweis Funds

and the Shareholders of Oberweis Micro-Cap Fund, Oberweis Small-Cap Opportunities Fund, Oberweis Global Opportunities Fund, Oberweis China Opportunities Fund, Oberweis International Opportunities Fund, and Oberweis Emerging Markets Fund

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Oberweis Micro-Cap Fund, Oberweis Small-Cap Opportunities Fund, Oberweis Global Opportunities Fund, Oberweis China Opportunities Fund, Oberweis International Opportunities Fund, and Oberweis Emerging Markets Fund, each a series of shares of beneficial interest in The Oberweis Funds (the "Funds"), as of December 31, 2022, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, the financial highlights for each of the periods noted in the table below, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Funds as of December 31, 2022, and the results of their operations for the year then ended, the changes in their net assets for each of the years in the two-year period then ended and their financial highlights for each of the periods noted in the table below, in conformity with accounting principles generally accepted in the United States of America.

| Class | Financial Highlights |
|---|---|
| Investor Class: Micro-Cap Fund Small-Cap Opportunities Fund Global Opportunities Fund China Opportunities Fund International Opportunities Fund | For each of the years in the five-year period ended December 31, 2022 |
| Investor Class: Emerging Markets Fund | For each of the years in the four-year period ended December 31, 2022 and for the period May 1, 2018 (commencement of operations) to December 31, 2018 |
| Institutional Class: Micro-Cap Fund Small-Cap Opportunities Fund Global Opportunities Fund China Opportunities Fund | For each of the years in the five-year period ended December 31, 2022 |
| Institutional Class: Emerging Markets Fund | For each of the years in the four-year period ended December 31, 2022 and for the period May 1, 2018 (commencement of operations) to December 31, 2018 |

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING

FIRM (continued)

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities law and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risk of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2022 by correspondence with the custodian, brokers, or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

BBD, LLP

BBD. LLP

We have served as the auditor of one or more of the Funds in The Oberweis Funds since 2016.

Philadelphia, Pennsylvania February 27, 2023

Supplemental Information (unaudited)

Long-Term Capital Gains

As of December 31, 2022, the following Funds designate long-term capital distribution as follows:

| Micro-Cap Fund | \$ 2,953,421 |
|----------------------------------|-----------------|
| Small-Cap Opportunities Fund | 264,899 |
| Global Opportunities Fund | 1,327,408 |
| China Opportunities Fund | 670,331 |
| International Opportunities Fund | _ |
| Emerging Markets Fund | 337,382 |

Foreign Taxes Paid

Pursuant to Section 853 of the Internal Revenue Code of 1986, as amended, the China Opportunities Fund, Emerging Markets Fund and International Opportunities Fund, respectively, designate \$754,659, \$189.469 and \$1,300,237 of income derived from foreign sources and \$29.862, \$66.948 and \$408.289 of foreign taxes paid for the period ended December 31, 2022.

Of the ordinary income (including short-term capital gain) distributions made (or to be made) for the year ended December 31, 2022, the proportionate share of income derived from foreign sources and foreign taxes paid attributable to one share of stock are:

| | So | Foreign urce Income | Foreign Taxes Paid |
|----------------------------------|----|------------------------|-----------------------|
| China Opportunities Fund | \$ | 0.0960 | \$ 0.0038 |
| International Opportunities Fund | | 0.1492 | 0.0469 |
| Emerging Markets Fund | | 0.1528 | 0.0540 |

Proxy Voting:

The Oberweis Funds has delegated authority to vote proxies related to the Funds' (Micro-Cap Fund, Small-Cap Opportunities Fund, Global Opportunities Fund, China Opportunities Fund, International Opportunities Fund and Emerging Markets Fund) Portfolio securities to the Funds' investment advisor, Oberweis Asset Management, Inc. ("OAM"). A description of the policies and procedures that OAM uses in fulfilling this responsibility is available, without charge upon request, by calling 1-800-323-6166. It also appears on www.oberweisfunds.com and in the Funds' Statement of Additional Information, which can be found on the Securities and Exchange Commission's ("SEC") website at http://www.sec.gov. Information on how the Funds voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 is available (1) without charge, upon request, by calling 1-800-323-6166, and (2) on the SEC's website at http://www.sec.gov.

Supplemental Information (unaudited) (continued)

Availability of Schedules of Portfolio Investments:

The Funds file their complete schedule of portfolio investments with the SEC for the first and third quarter of each fiscal year (March 31 and September 30) on Form NPORT. The Funds' Forms NPORT are available, without charge, on the SEC's website at http://www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Approval of Investment Advisory Agreements and Investment Sub-Advisory Agreement

The Investment Advisory Agreement between The Oberweis Funds (the "Trust") and Oberweis Asset Management, Inc. ("OAM") with respect to the Micro-Cap Fund, the Global Opportunities Fund and the Small-Cap Opportunities Fund and the Investment Advisory and Management Agreement between the Trust and OAM with respect to the International Opportunities Fund, the China Opportunities Fund and the Emerging Markets Fund (collectively, the "Advisory Agreements") (the above-noted funds of the Trust are collectively referred to as the "Funds"), and the Investment Sub-Advisory Agreement between OAM and Oberweis Asset Management (Hong Kong) Limited ("OAMHK"), a wholly owned subsidiary of OAM, with respect to the China Opportunities Fund (the "Sub-Advisory Agreement" and together with the Advisory Agreements, the "Agreements") were last approved by the Board of Trustees of the Trust (the "Board"), including all of the trustees who are not parties to the Agreements or interested persons of any such party (the "Independent Trustees"), at a meeting on August 17, 2022. The Board, including a majority of the Independent Trustees, determined that the continuation of the applicable Agreements was in the best interests of each of the Funds.

The Board noted that OAM has been associated with each of the Funds since its inception. The Board recognized that a long-term relationship with a capable, conscientious investment adviser is in the best interests of each Fund, and that shareholders have invested in the Funds knowing that OAM manages the Funds and knowing the investment advisory and management fee schedules.

Nature, Quality and Extent of Services. With respect to the nature, extent and quality of the services provided (i) to the Funds by OAM pursuant to the Advisory Agreements and (ii) to the China Opportunities Fund by OAMHK pursuant to the Sub-Advisory Agreement, the Board considered the background and experience of OAM and OAMHK, the functions performed by OAM and OAMHK and the personnel providing such services, the management capabilities of OAM and OAMHK, the information contained in OAM's and OAMHK's Forms ADV, OAM's financial condition and the compliance reports provided to the Board, and the culture of compliance created by OAM and OAMHK, including the competency of the Chief Compliance Officer of the Trust, OAM and OAMHK. The Board also considered the experience, academic background, long tenure, structure, size and geographic locations of the portfolio management/strategy investment teams and their respective roles, the investment process with respect to the types of investments held by the Funds, as well as the honesty and integrity of OAM and OAMHK, and that, in the Board's experience, OAM and OAMHK personnel are open and forthright with the Board. In addition, the Board considered that OAM and OAMHK are research-oriented firms that conduct extensive research in connection with managing the Funds, and also considered the competitive pressure on active management.

Supplemental Information (unaudited) (continued)

The Board reviewed the investment performance of each Fund as compared to a peer universe of funds provided by Broadridge Financial Solutions, Inc. ("Broadridge"), an independent provider of investment company data (the "Performance Universe"), and as compared to the performance of a relevant market benchmark index. With respect to Fund performance, the Board considered each Fund's performance over the one-, three-, five- and ten-year periods ended June 30, 2022, as applicable, including any periods of outperformance or underperformance as compared to the performance of the relevant market benchmark index and the Fund's Performance Universe average. The Board noted (i) each of the Micro-Cap Fund and the Small-Cap Opportunities Fund outperformed its respective relevant market benchmark index and Performance Universe average for all periods reviewed, (ii) the International Opportunities Fund outperformed its relevant market benchmark index and Performance Universe average for all periods reviewed except the one-year period, (iii) the Global Opportunities Fund outperformed its relevant market benchmark index and Performance Universe average for all periods reviewed except for the one-year period, and for the five-year period the Global Opportunities Fund's performance approximated that of its Performance Universe average, (iv) the China Opportunities Fund outperformed its relevant market benchmark index for all periods reviewed and outperformed the Performance Universe average for all periods reviewed except the one-year period, and (v) the Emerging Markets Fund underperformed the relevant market benchmark index for the one-year period but outperformed the Performance Universe average for the one-year period and outperformed the relevant market benchmark index and Performance Universe average for the three-year period. In light of the information provided and the considerations made, the Board concluded that the nature, quality and extent of the services provided to each Fund by OAM and to the China Opportunities Fund by OAMHK have been and are expected to remain satisfactory.

Fees and Expenses. The Board considered the combined investment advisory and management fees charged to each Fund by OAM (the "management fees") as compared to the management fees of a peer group of funds provided by Broadridge (the "Expense Group") and the expense ratio(s) of each Fund as compared to the expense ratios of the Expense Group. The Board considered information provided by Broadridge on how it selected the peer funds included in the Expense Group for each Fund and considered certain limitations as to the comparability of the data provided. Based on the information provided, the Board noted that, although the contractual management fees for each Fund (except the Small-Cap Opportunities Fund and the Global Opportunities Fund) were above the median management fee of its respective Expense Group, they were within a reasonable range of the applicable median and that the contractual management fees for the Small-Cap Opportunities Fund and the Global Opportunities Fund were below the median management fee of the applicable Expense Group. The Board also noted, among other things, that it believed that each Fund's management fees were reasonable in light of the levels of investment performance over the time periods reviewed, and as compared to the performance of the applicable relevant market benchmark index and Performance Universe. With respect to the investment sub-advisory fees paid to OAMHK relating to the China Opportunities Fund, the Board noted that such fees are paid by OAM and not the China Opportunities Fund.

The Board noted that the expense ratio for each Fund's Institutional Class (with the exception of the Micro-Cap Fund and the Global Opportunities Fund), as applicable, was above the median of the expense ratio of its applicable Expense Group. The Board also noted that the expense ratio of each Fund's Investor Class and for the International Opportunities Fund was above the median expense ratio of its applicable Expense Group.

Supplemental Information (unaudited) (continued)

In addition, the Board considered management fees paid to OAM by other clients. With respect to OAM's other clients, the Board recognized that the mix of services provided to the Funds, the level of responsibility required under the Advisory Agreements with the Funds, and the regulatory, compliance and operational requirements with respect to the Funds are greater than OAM's obligations for similar client accounts, and that the management fees for such accounts are less relevant to the Board's consideration of the management fees for the Funds because they reflect different competitive forces than those in the mutual fund marketplace. Based on the information provided, the Board concluded that each Fund's management fees were reasonable and appropriate in amount, given the nature, quality and extent of the services provided and taking into consideration relevant circumstances.

Profitability. With respect to the costs of services provided and profits realized by OAM, the Board considered the management fees received by OAM from each of the Funds as well as the level, quality and expense of OAM's staff and the services that OAM provides. The Board also considered the explanation from OAM that the profits realized by OAM specifically from the relationship with the Funds could not be identified due to the impracticality of expense allocation, noting the difficulty of breaking down profitability related to each Fund versus the other Oberweis Funds and other client accounts because management and personnel time and services are not allocated between the various types of accounts. The Board noted OAM's belief that, while the profits could not be itemized, the overall profitability of OAM was average and within a reasonable range relative to other investment advisory firms, and considered that OAM has contractually agreed to reimburse the Funds for expenses if their respective expense ratios exceed certain limits. The Board did not consider the profits realized by OAMHK with respect to the China Opportunities Fund, noting that OAM compensates OAMHK from its management fees and that the revenue to OAMHK was limited due to the size of the China Opportunities Fund. Based on this information, the Board concluded for each Fund that OAM's profitability was not unreasonable.

Economies of Scale. The Board considered the extent to which economies of scale would be realized as each Fund grows, and whether management fee levels reflect economies of scale for the benefit of Fund shareholders. The Board noted asset capacity constraints for each of the Funds which limit economies of scale and the expense reimbursements made by OAM to certain of the Funds. The Board also noted that the investment advisory fee schedule for the Global Opportunities Fund includes a breakpoint designed to share economies of scale with shareholders. The Board concluded that each Fund's management fees reflect an appropriate recognition of any economies of scale.

Other Benefits to OAM and Its Affiliates. The Board considered the character and amount of other incidental benefits received by OAM and its affiliates (including OAMHK) from their relationship with the Funds, including the fees received by Oberweis Securities, Inc. ("OSI"), an affiliate of OAM and OAMHK, for distribution services, as applicable, and benefits to OAM and other OAM client accounts related to soft dollars generated by the Funds' brokerage transactions. The Board also noted that during the past year none of the Funds' brokerage transactions had been placed through OSI.

After due consideration of all of the information and factors deemed relevant by the Board and based upon their own business judgment and the conclusions reached, the Board determined to approve the continuance of the Agreements. The Board, including the Independent Trustees, did not identify any single factor or group of factors as all-important or controlling, and considered all factors together.

Supplemental Information (unaudited) (continued)

Expense Examples:

As a shareholder of The Oberweis Funds, you may incur two types of costs: (1) transaction costs, including redemption fees and (2) ongoing costs, including management fees; distribution (and/or service) 12b-1 fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in The Oberweis Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 investment at the beginning of the period and held for the entire period.

Actual Expenses:

The first line for each Fund in the table below provides information about actual account values and actual expenses. You may use the information below; together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000=8.6), then multiply the result by the number in the table under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes:

The second line for each Fund in the table below provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees. Therefore, the second line for each Fund in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
