

Investment Strategy

The Oberweis International Opportunities Fund seeks to identify and capitalize on the investment opportunities offered by smaller companies in Europe, the UK, Canada, Asia, Japan, and Latin America. The Fund focuses on identifying less well-known small-cap companies which traditionally receive less coverage than larger companies, consequently providing unique opportunities to unearth hidden values.

Key Benefits

The potential key benefits of the International Opportunities Fund are:

- Diversified portfolio of smaller, non-U.S. companies with higher than expected earnings potential
- Combines empirically-documented Behavioral Finance principles with the very best of fundamental bottom-up research
- Access to attractive but lesser-known foreign companies that do not receive significant institutional coverage but possess higher than expected growth potential
- Achieve a more effective asset allocation, and greater long-term diversification through investments in non-U.S. equities
- Invests primarily in developed markets with some exposure to emerging markets
- Potential for significant alpha over a full market cycle

Minimum Investment: \$1,000 non IRA, \$500 IRA

The Oberweis Funds invest in rapidly growing smaller and medium sized companies which may offer greater return potential. However, these investments often involve greater risks and volatility. Investing in emerging markets involves risks and considerations not present when investing in more-established securities markets. Investing in international/emerging market investment funds should be considered speculative and thus not appropriate for all investors. There is no guarantee that the portfolios can achieve their objectives.

*Audited data as of December 31, 2022. Oberweis Asset Management, Inc. (OAM), the Fund's investment advisor is contractually obligated through April 30, 2024 to reduce its management fees or reimburse OBIOX to the extent that total ordinary operating expenses exceed in any one year 1.60% expressed as a percentage of the Fund's average daily net assets. Effective May 15, 2023, the adviser may recoup the amount of any expenses reimbursed under the contract within three years following the date of the reimbursement if the recoupment does not cause the Fund's expenses to exceed the expense limitation in place at the time of the recoupment, or the expense limitation in effect at the time of the initial reimbursement, whichever is lower.

The Oberweis Funds are distributed by Oberweis Securities, Inc. Member: FINRA & SIPC.

The MSCI World ex-US Small-Cap Growth Index (Net) is a free float-adjusted market capitalization weighted index that is designed to measure the performance of small cap growth developed markets excluding the UIS, with minimum dividends reinvested net of withholding tax.
