

# OBERWEIS MICRO-CAP FUND INVESTOR CLASS (OBMCX) INSTITUTIONAL CLASS (OMCIX)

2Q 2023

## Key Benefits

The Micro-Cap Fund invests at least 80% of its net assets in the securities of very small companies which, at the time of purchase, have a market capitalization of less than or equal to \$600 million or are within the range of companies represented in the Russell Micro-Cap Growth Index, whichever is greater. This is an effort to capture the exceptional growth potential of emerging companies in the earliest and most dynamic phase of their development.

The potential key benefits of the Micro-Cap Fund are:

- Access to one of the least efficient segments of the equity market
- Potential for significant alpha over a full market cycle
- Combines empirically-documented Behavioral Finance principles with the very best of fundamental bottom-up research
- Disciplined and repeatable investment process managed by a passionate and experienced investment team
- Fundamental research process specifically designed to efficiently discover micro-cap companies that are misunderstood by traditional Wall Street research analysts
- Exposure to micro-cap companies offering the potential for earnings growth that differs from consensus expectations
- Diversified portfolio with a focus on risk management

The Oberweis Funds invest in rapidly growing smaller and medium sized companies which may offer greater return potential. However, these investments often involve greater risks and volatility. There is no guarantee that the portfolios can achieve their objectives.

Minimum Investment:

Oberweis Micro-Cap Fund Investor Class (OBMCX): \$1,000 non-IRA, \$500 IRA

Oberweis Micro-Cap Fund Institutional Class (OMCIX): \$1.0 million
