

# OBERWEIS EMERGING MARKETS FUND

## INVESTOR CLASS: (OBEMX)

## INSTITUTIONAL CLASS: (OIEMX)

2Q 2024

### Investment Strategy

The Oberweis Emerging Markets Fund invests, under normal circumstances, at least 80% of its net assets (plus the amount of borrowings, if any) in the securities of companies based in emerging markets. This includes securities of companies based in or whose securities are primarily traded on an emerging market exchange. It also includes those that have at least 50% of their assets in or derive at least 50% of the revenues from business activities in emerging market countries. The Fund generally invests in the stocks of small- and medium-sized companies with a market capitalization of less than \$5 billion or within the range of companies in the MSCI Emerging Markets Small-Cap Index, whichever is greater.

### Key Benefits

The potential key benefits of the Emerging Markets Fund are:

- Opportunity to capture growth: Emerging markets are estimated to grow 2-3 times faster than developed nations and a rapidly growing middle class is expected to increase spending and consumption
- Diversification - Emerging markets represent almost a quarter of international markets outside of the United States and provide further opportunity to find quality companies
- Potential for higher returns - Emerging markets have outperformed the general global markets in 13 of the last 20 calendar years
- Access to active portfolio management - less efficient markets may create opportunities for active managers
- A long-term, disciplined investment approach - the strategy focuses on high-quality, well-capitalized companies with sustainable competitive advantages and secular growth tailwinds
- All-weather approach to Emerging Markets Small-Cap

Minimum Investment:

Oberweis Emerging Markets Fund Investor Class (OBEMX): \$1,000 non-IRA, \$500 IRA

Oberweis Emerging Markets Fund Institutional Class (OIEMX): \$1.0 million

The Oberweis Funds invest in rapidly growing smaller and medium sized companies which may offer greater return potential. However, these investments often involve greater risks and volatility. Investing in emerging markets involves risks and considerations not present when investing in more-established securities markets. Investing in international/emerging market investment funds should be considered speculative and thus not appropriate for all investors. There is no guarantee that the portfolios can achieve their objectives.

\*Expense ratio as of 12/31/23. Oberweis Asset Management, Inc. (OAM), the Fund's investment advisor is contractually obligated through April 30, 2025 to reduce its management fees or reimburse OBEMX to the extent that total ordinary operating expenses exceed in any one year 1.75% expressed as a percentage of the Fund's average daily net assets and for OIEMX 1.50%. Effective May 15, 2023, the adviser may recoup the amount of any expenses reimbursed under the contract within three years following the date of the reimbursement if the recoupment does not cause the Fund's expenses to exceed the expense limitation in place at the time of the recoupment or at the time of the reimbursement, whichever is lower.

The Oberweis Funds are distributed by Oberweis Securities, Inc. Member: FINRA & SIPC.

The MSCI Emerging Markets Small Cap Index is a free float-adjusted, market capitalization-weighted index that measures the performance of small-cap stocks in 24 emerging markets. It is not possible to invest directly in an index.
