### The Fund’s past performance is not a good predictor of the Fund’s future performance.

The Fund’s performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund’s returns, do not reflect any fees or expenses. If such fees and expenses were included in the Index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index.

The MSCI China Net Index is a free float-adjusted market capitalization-weighted index of Chinese equities that include China-affiliated corporations and H shares listed on the Hong Kong Exchange, and B shares listed on the Shanghai and Shenzhen exchanges and P chips and foreign listings with minimum dividends reinvested net of withholding tax. The MSCI China Net Index is unmanaged and is not available for investment.
