

OBERWEIS FOCUSED INTERNATIONAL GROWTH FUND (OFIGX)

1Q 2025

Investment Strategy

The Focused International Growth Fund is a concentrated, high-conviction, high alpha strategy that is managed by Ralf Scherschmidt and team, the same team that manages our International Opportunities Fund (small-cap). The Focused International Growth Fund will generally own between 25-40 positions and invest in companies that have market capitalizations greater than US\$5 billion. In managing the Focused International Growth Fund, our team follows the same disciplined, time-tested investment process and philosophy that has produced highly superior results over long periods of time in our International Opportunities Fund (small-cap), with a higher degree of freedom and flexibility in portfolio construction and position sizing. It identifies companies whose future fundamentals, earnings power and cash flow generation are not yet correctly understood by the market. As a result, their securities can be mispriced; our process repeatably and successfully capitalizes on these situations. Our approach to investing is differentiated and combines empirically-documented sources of alpha (backed by empirical evidence from research in behavioral finance) with rigorous fundamental bottom-up research.
